# RACE HORSES ARE ENTERED

RACING DEPARTMENT WILL BE ONE OF FEATURES AT DOTHAN FAIR.

That the racing department will probably be one of the feature of the Dothan Fair is assured by F. Thomas Secretary of the Association after his visit to the Birmingham Fair.

His acquaintance with the owners and drivers and his guarantee of good treatment to the horseman visiting and his arrangements of the classes will make this department filled with entries.

Following are some of the horses that have entered.

Frances J. Green Trotter, owned by Mr. Jones of Troy, Ala., will start in the two-thirty and two-twenty class.

Peter Wood, Trotting record two-nineteen and one quarter, owned by Ben Burk, Dozier, Ala., will start in the two-twenty and two-fifteen class.

Elmore Bell, Trotting record two-nineteen and one quarter and Alabama Tobbs will start in the two-twenty and two thirty class.

Highland Mack, Pacer, owned by Mr. J. T. Cooper, Hartsville, Ala., will start in the three minutes and two-twenty pace.

Prince Alexis, Trotting record, twenty-four and one quarter, will start in the two-fifteen and two-twenty trot.

Creators, pacing record sixteen and one quarter will start in the fifteen class and free for all pace. Prince Alexis and Creators are owned by Mr. John Vincantelli of Montgomery, Ala., and driven by Mr. William Gallagher of Selma, Ala.

The Algerian two-nineteen and one quarter will start in the two-twenty and two fifteen trot, owned by Mr. Bernard H. Latmore, Murray, Ky., trained and driven by George J. Fisher of Memphis, Tenn.

Dan Wilkes, pacing record two-nineteen and one quarter is also entered in the two-fifteen and two-twenty pace.

Ham Patterson, two-eleven and one quarter, owned by Rodney Irwin, Fulton, Ky., will start in the free for all trot.

Ronnie Boy two-seven and one quarter, owned by Ham Parks, of Memphis, Tenn., will start in the free for all pace. These two horses are trained and driven by Guy Lee of Union City, Tenn.

Alice May Direct, pacing record two-eleven and one quarter, owned by H. E. F. Jones, of Cartersville, Ala., will start in the free for all pace. These with a number of other horses already entered will make good racing at our track, as these are grand circuit horses and have been racing right down the big line in Indianapolis, Ind., Louisville, Ky., Memphis, Tenn., Nashville, Tenn., and Birmingham, Ala.

The sensational Pacer, "TOMMY BILLY" that paced the fastest mile ever paced in Alabama when he stepped the Birmingham track in 2:02 3-4 (two-two and three quarters) owned and driven by W. E. Sparks of Russellville, Ind., may be signed up to come here to give an exhibition mile that would establish a record on our track that would be the fastest mile ever stepped by any horse in a half-mile track in the State of Alabama.

## WHAT A RUMOR DID.

Yesterday morning all of the bootlegging saloons uptown closed and remained closed during the rest of the day. The fact that the grand jury had summoned the mayor, the police commissioner and a high police official gave rise to a rumor that there would be a general shutdown.

This incident merely illustrated the power of the officials to close down and keep closed every joint in Memphis where liquor is illegally sold. It is proof that if the police were ordered to see to it that the law against the illegal selling of liquor was obeyed, it would be obeyed.

The decent saloons of Memphis have long since gone out of business. Only the dives and deadfalls remain open. This sort ought to be closed even when liquor may be legally retailed in Memphis. —Memphis Commercial Appeal.

Sh! Don't you know you are ruining your city by even intimating that liquor is illegally sold in it? And don't you know that some "under-the-wagon-dog newspaper" in its overzealous efforts to obey its master's voice in defense of lawlessness, and immorality will call you a hypocrite and charge you with trying to besmirch the moral life of your city?

The Commercial Appeal a great paper further says, "The incident fell into error. Its almost unparadigmatic error is in not covering up lawlessness instead of openly denouncing it."

The Commercial Appeal has such a careless disregard for the good of its home city that it uses the words "bootlegger," "joint" and "dive" in editorial reference to violations of the prohibition law. Awful! And this indiscreet newspaper further says, "This incident merely illustrates the power of the city officials to close down and keep closed every joint in Memphis where liquor is illegally sold." No it doesn't illustrate any such thing. City officials CANNOT close down and keep closed every "joint" where liquor is illegally sold. Dothan officials have never tried it, therefore we know it cannot be done. We hope the Commercial Appeal will be more discreet in the future.

What's bothering the fellows at Washington worse than almost anything else, is figuring out, or trying to figure out, just what action they can take with reference to disposing of the distressed cotton in the South so that it will redound to their credit as fence-building material. They paragraph concerning her engagement in the few representative of the cotton growing states. Nearly all the only item in that issue that people would block anything that will read.

# IN ALL OUR NEIGHBORHOOD

There Is Hardly A Woman Who Does Not Rely Upon Lydia E. Pinkham's Vegetable Compound.

Princeton, Ill.—"I had inflammation, hard headaches in the back of my neck and a weakness all caused by female trouble, and I took Lydia E. Pinkham's Vegetable Compound with such excellent results that I am now feeling fine. I recommend the Compound and praise it to all. I shall be glad to have you publish my letter."

There is scarcely a neighbor around me who does not use your medicine."—Mrs. J. F. JOHNSON, R. No. 4, Box 30, Princeton, Illinois.

**Experience of a Nurse.**  
Poland, N. Y.—"In my experience as a nurse I certainly think Lydia E. Pinkham's Vegetable Compound is a great medicine. I wish all women with female troubles would take it. I took it when passing through the Change of Life with great results and I always recommend the Compound to all my patients if I know of their condition in time. I will gladly do all I can to help others to know of this great medicine."—Mrs. HORACE NEWMAN, Poland, Herkimer Co., N. Y.

If you are ill do not drag along until an operation is necessary, but at once take Lydia E. Pinkham's Vegetable Compound.

If you want special advice write Lydia E. Pinkham Medicine Co., (confidential) Lynn, Mass.

According to Dr. Woods Hutchinson, wars are not so dangerous if the soldier expects to be shot. He has many more chances of losing his life from other causes notwithstanding the modern war machines.

If the Kaiser comes out with his mustache he's a better general than we thought him. However, if he were to get a shave, the barber shops would pick up right now, all over Germany.

Well, you can at least come to Dothan and visit the fair the week of Oct. 26-31. Our first attempt, and we never fail.

If the editorial thought runs out in some of the big newspapers of lies they put a man out to write a piece about the liquor question. Nothing new has been said about it in three score and ten years.

This section of the state refuses to get wrought up over the coming election. They killed the bear one time this year, and they want it buried.

"Let us go to Dothan," for the fair starts Oct. 26th.

## LUKE M'LUKE SAYS.

From the Cincinnati Enquirer.

When a girl's face is her fortune you can't blame her for painting it up every day and keeping it in repair.

Many a rich man wishes he could take a poor man's appetite into the dining room with him.

A bachelor can't see why he should invent \$2 in a marriage license when he can buy a talking machine for \$40.

Our idea of a brute is a man whose wife is so scared of him that she dares not open his mail.

The man who never makes any mistakes never gets any work done.

A girl doesn't notice the scare heads in six-inch type in a newspaper. But if there is a two-line paragraph concerning her engagement buried away on the inside of the paper, she knows that it is the ten growing states. Nearly all the only item in that issue that people would block anything that will read.

A girl imagines that her life work

has been accomplished when she lands a husband. But it has only just begun.

And when her love grows cold her temper grows hot.

A man has to wear th emuap that nature gave him. But a woman's complexion is what she makes it.

A Boston man says that the wise poultry raiser will put the chickens if he is wise he won't pet them when his wife is around.

A wash dress is usually one that looks as though it needed it.

The reason why we never abuse a dead man is probably because we know it wouldn't hurt him.

Education is a great thing. The old fashioned man who used to have to hang around dark streets with a piece of lead pipe in order to make a living without working now has a son who sells mining stock.

## IF THE BABY IS CUTTING TEETH USE

**Mrs. Winslow's Soothing Syrup**  
A SPLENDID REGULATOR  
PURELY VEGETABLE—NOT NARCOTIC

**Almost Floored Singer.**  
Mrs. Newb's Riche had been invited to an exclusive private musicale at the home of one of the socially select it was her first appearance in the noted circle and she was anxious to justify her presence among aristocratic music lovers by seeming well informed in matters musical. So she ventured a remark when all had become still, after the polite applause for the beautiful singing of the baritone star of the occasion. Leaning toward him eagerly and making her self as conspicuous as possible, she said "Oh, Signor Despotone, I am so interested in the English composers, won't you please sing something by Sir John L. Sullivan?"

**"Potato Rings" Prized.**  
What is commonly called a "potato ring" was recently sold in London for \$225. These exquisite examples of the work of the eighteenth century Irish silversmiths are not "potato rings" at all. The Irish gentry of the period were addicted to punch after their dinners. A bowl of hot punch quickly leaves a permanent mark on a mahogany table, so these rings were designed as repositories for the punch bowl.

**Appreciative Spectator!**  
Lawyers are not the only class to which a sense of the peculiar value of their attention is well developed. It is recorded of a famous actor that in the course of a tour he rewarded the politeness of a waiter at his hotel with a pane for the theater to which all the town was crowding to see the stage favorite in a great play. The next day the actor asked the man how he had enjoyed the visit to the theater. "Oh, it was very nice, I enjoyed it very well, indeed—but—who is to pay me for my time?" was the disconcerting reply.

**Neatly to No Waste Matter.**  
Scientists and business men are both beginning to understand that in reality there is no such thing as waste matter. The existence of what we call waste or refuse is due merely to our failure to find a proper method of turning it into dollars and cents.

# HELPLESS AS BABY

Down in Mind Unable to Work, and What Helped Her.

Summit Point, W. Va.—Mrs. Anna Belle Emery, of this place, says: "I suffered for 15 years with an awful pain in my right side, caused from womanly trouble, and doctored for it, but without success. I suffered so very much, that I became down in mind, and as helpless as a baby. I was in the worst kind of shape. Was unable to do any work."

I began taking Cardui, the woman's tonic, and got relief from the very first dose. By the time I had taken 12 bottles, my health was completely restored. I am now 48 years years old, but feel as good as I did when only 16.

Cardui certainly saved me from losing my mind, and I feel it my duty to speak in its favor. I wish I had some power over poor, suffering women, and could make them know the good it would do them."

If you suffer from any of the ailments peculiar to women, it will certainly be worth your while to give Cardui a trial. It has been helping weak women for more than 50 years, and will help you, too.

Try Cardui. Your druggist sells it.

## Hamlet in South Africa.

It can hardly be expected that "post impressionism" will be confined to pictures in the future. A friend writes from South Africa that some genius out there has done "Hamlet" in the Tati and quotes the following example which seems to me extremely postimpressionistic. Here it is: Hamlet—Wie is u? Ghost—Ik is om spook. Hamlet—Wien spook is u? Ghost—Ik is yn papa's spook."

## Rare Book Changes Owners.

A copy of a very rare book the "Speculum Christiani," printed by William de Machlinia in 1483, was sold at Messrs. Hodgson's rooms in Chancery Lane for \$690, a few days ago. Machlinia and Letton, his partner, were the first printers in London, and the former had his press in Holborn.

AN Alika. A Glasgow school teacher was reviewing the assembled ranks preparatory to marching them to their classes the other morning. As he walked up and down the lines he noticed one boy whose boots had not been blacked, and who was standing slightly in front of the others. Wishing to shame him into methods of neatness, the teacher exclaimed "The boy with the dirty boots, step back into line." And straightway (says the Glasgow News) the whole line shuffled back a pace!

## GINNING DAY AND NIGHT.

Owing to the large demand made on my gin on account of the superior sample it turns out of the storm cotton it will be necessary to run day and night commencing Monday, Oct. 12th. You can get your cotton ginned any hour of the night the same as the day. If you will bring your dry cotton it makes no difference how many burs or how much dirt I can make you a good sample. Good wagon yard and plenty of stails and water for your stock. When you weigh your cotton and leave it at my warehouse I put the ginning, bagging and ties on receipt, but when cotton and seed are both carried off the ginning will be cash unless there is special and business arrangements to have it charged.

I buy cotton seed and seed cotton.

Mr. J. H. Blackmon will have full control of my warehouse, commencing October 12th. Mr. Blackmon is well known to most of the people and they are willing to trust him to handle their cotton. Mr. Blackmon is one of the present county commissioners. Bring him your cotton.

##### The Straggler.

A certain Confederate private,  
whose name might be Jim Buckalew,  
was in the remotest lines at Peters-  
burg when the mine was exploded un-  
der the Elliott salient. After he had  
gone away a piece he returned and  
fell in the crater, and later was dug  
out from under several feet of dirt.  
alive. "I'm plum disgraced," he con-  
fided to the nurse in the hospital.  
"When that mine went off I was back  
from the trench a bit. Consequently  
I was put right up in the air when  
the other fellows was comin' down—  
and when I panned 'em over last one  
of 'em cursed me an' said: 'Hey, yu  
damned straggler, yu, why don't yu  
keep up with the troop?'"

##### Beer Always on Tap.

Baravia has the world's record for  
beer drinking. Perhaps that accounts  
for a certain push button in the city  
of Nuremberg. On one of the many  
interesting little streets of that quaint  
old town there is a large, plain-look-  
ing building which serves as the down-  
town office and warehouse of a cer-  
tain large brewery. In the wall near  
the door of this wholesale establish-  
ment there is a push button, that evi-  
dently connects with an electric bell  
somewhere. Over it is a sign reading  
"Bierglocke," which translated liter-  
ally into English means "Beer Bell"—  
evidently an arrangement for sum-  
moning more beer in case of emer-  
gency.

##### Eighteen Years in Cold Storage.

It is an axiom of good cooking that  
beef should be well hung before being  
sent to the chef, but the owners of a  
certain hind-quarter which was ex-  
hibited at Smithfield market in Lon-  
don recently have surely gone to rath-  
er extreme lengths in this matter, for  
they have kept it in cold storage for  
18 years. When it was taken "off the  
ice," so to speak, and looked at by ex-  
perts armed with nothing more  
formidable than magnifying glasses,  
they unanimously reported that it was  
still sweet and sound, and apparently  
lacking but little in nutritive qual-  
ities. A piece was cut off and sent to  
the analysts so that they might as-  
certain by scientific methods exactly  
what chemical changes, if any, it  
had undergone. The now famous joint  
was shipped in 1896, and sold to a firm  
of military contractors at Malta, who  
retained it in their cold store there  
for experimental purposes until the  
government took over their warehouse  
some months ago, when the quarter  
was sent on to London.

##### Knew His Colleague.

Two Manhattan physicians were en-  
joying the breeze from the front seat  
on the "hurricane deck" of a river-  
side drive bus one afternoon, when  
part of their conversation was over-  
heard. It ran like this: "I performed  
an operation for appendicitis on the  
wife of a millionaire yesterday," said  
the stouter of the pair. "Yes," said  
the other. "What was she suffering  
from?"

##### English Soap Clubs.

"Soap clubs held here," is the notice  
in a shop window in Soho, London. On  
inquiry it was found that the clubs  
were similar to the hat and feather  
clubs which abound in Whitechapel  
and Bethnal Green. The money is  
pooled together every week for soap,  
and there is a draw who shall have it  
first. You may be lucky and get your  
soap the first week you join the club,  
or you may have to wait three months.  
But a glance at Soho waiting for soap  
suggests that it is not such a terrible  
hardship as it appears at first sight.

### LESSON TEXT.

12 And the first day of unleavened bread when they killed the passover, his disciples said unto him, Where wilt thou that we go to prepare that thou mayest eat the passover?

13 And he sendeth forth two of his disciples, and saith unto them, Go ye into the city, and there shall ye find a man bearing a pitcher of water: follow him.

14 And whosoever he shall go say ye to the goodman of the house, The Master saith, Where is the guestchamber, where I shall eat the passover with my disciples?

15 And he will shew you a large room furnished and prepared: there make ready for us.

16 And his disciples went forth, and came into the city, and found as he had said unto them: and they made ready the passover.

17 And in the evening he cometh with the twelve.

18 And as they sat and did eat, Jesus said, Verily I say unto you, One of you which eateth with me shall betray me.

19 And they began to be sorrowful, and to say unto him one by one, Is it I? and another said, Is it I?

20 And he answered and said unto them, It is one of the twelve, that dipeth with me in the dish.

21 The Son of man indeed goeth as it is written of him: but woe to that man by whom the Son of man is betrayed! good were it for that man if he had never been born.

22 And as they did eat, Jesus took bread, and blessed, and brake it, and gave to them, and said, Take, eat: this is my body.

23 And he took the cup, and

when he had given thanks, he gave it them: and they all drank of it.

24 And he said unto them, This is my blood of the new testament, which is shed for many.

25 Verily I say unto you, I will drink no more of the fruit of the vine, until that day that I drink it new in the kingdom of God.

**YOUR attention is respectfully called to an important point not generally known, that a laxative should have a tonic element to successfully meet constipation.**

Mr. John S. Capers, of 616 Foster St., Fort Worth, Texas, had a significant experience in this particular. He was afflicted with a severe case of constipation and bowel trouble. He spent a good deal of money in trying to find a remedy. To his astonishment, Peruna very quickly relieved him of his bad symptoms.

This happened a number of years ago. Since then, Mr. Capers states that he has had similar attacks of trouble, the prominent symptom of which is constipation, and has always found prompt and efficient relief from Peruna. He says: "Up to the time I started using your Peruna I could drink castor oil like water. It did no good. As for salts, they were of no use. Physicians of all kinds and classes were used, but we had to call on the fountain syringe for help." Peruna was able to correct this condition completely in Mr. Capers' case, and there is every reason to believe that it was the tonic qualities of Peruna, added to the laxative qualities, that procured this very desirable result.

Song: "Labor On."

Prayer of dismissal.

### MISSION STUDY CLASS.

The Mission Study Class of the First Baptist church will meet Monday afternoon at 3 o'clock. A full attendance is earnestly desired.

### To Tell When Rain Will Begin to Fall

First, find the distance of the cloud by noting how many seconds elapse from the flash till the thunder. Divide the number by 5. This will give the number of miles. Then, after waiting a number of minutes, do the same again. This will show how much nearer the storm is now, or how fast it has approached in so many minutes, and knowing how many miles it is distant, it can easily be ascertained in how many minutes rain will begin to fall.—Exchange.

### Green Corn in England.

About 1890 an Englishman in Essex with greater wisdom than the rest of the people of England began raising green maize for the London market, and some growers in the Isle of Jersey followed, so that today green corn may be bought from a few firms in Covent garden and in the Brixton neighborhood, where reside many theatrical people who acquired the green corn habit while touring this country, green maize is sold and understood.

### Battle Field Statistics.

The result of careful observations made at battle-field hospitals by one of the leading surgical authorities of the French gives the relative frequency of wounds not instantaneously mortal as: Slight, 60 per cent; serious, 15 per cent; very serious, 25 per cent. The experience of recent wars shows the head and the right arm as the most frequent lodging places of projectiles.

### Encourage Children to Play.

Play gives joy, freedom, contentment and occupation. A child who plays thoroughly, with perseverance and determination, will be thorough and persevering in life. Children are full of imagination, which finds expression in their games and play. A child's world is very real. Blocks, balls, water colors, scrap books, sands, spoons or garden tools have a significance for him.

### Delay is Fatal.

When a marriage is put off, the probability is that it will never occur. The time spent of courage which enables a man to face a marriage service comes to him only once or twice in his lifetime.—Topeka Daily Capital.

### Thought Gorilla a Myth.

It is a strange fact of natural history that the gorilla was unknown to science until the middle of the last century, when there was a migration of the animals from the interior of Africa towards the coast, probably in quest of food. The first scientific investigation of the great ape was made by an American missionary, Rev. Leighton Wilson. He was met with jeers that "there ain't no such animal," until, towards the close of 1846, he obtained a skull and sent it to the Boston Museum of Natural History.

**Wouldn't Do in America.**  
A woman from Germany was visiting Little Herman's mother one day. Herman was trying to make a kite. He asked the guest if she knew how to make a tail for his kite. She told him she did not know how the little American boys made tails for their kites, but she knew how the little German boys made them. She knotted up some strips of paper, and when he saw it he said: "Oh, my, that will never fly in America."

**One Thing Grouse Can Do.**  
"A grouse," observe the Jamestown Optimist, "adds to the happiness of others only by keeping away from them."—Kansas City Star.

### Rare Books Fetch High Prices.

Ben Jonson's works were in favor when the sale of the fourth portion of the Huth library commenced at Sotheby's in London. The only copy known on large paper of "The Fall of Silius" realized \$4,500. It was increased in value by being an autograph copy, containing in Ben Jonson's writing the dedication: "To my perfect friend, Mr. Francis Craue, I erect this pillar of friendship, and leave it as the eternal witness of my love.—Ben Jonson." The fourth book printed with a date, Baldu's Catholicon, fetched \$3,800, and the second of the original unauthentic quarto editions of "John, King of England," a play used by Shakespeare, realized \$850.

### The Chestnut.

The axle or chestnut deer of the Indian jungle can claim to be the most ornamental of all the 26 races of deer to be seen gathered together at Woburn, England. In the early summer, when all the other deer except the wapiti are either shedding their horns or "in the velvet," the axle is in perfection, both of color and outline. The large head of this species looks as if carved out of ivory and red gold in the sunbush and verdure of English scenery. Their horns are almost white, their eyes and muzzles of jet black, their throats white and their sides and backs a brilliant golden tan, spotted with round dots of purest white.

### The Rivals.

It was at Nice. Two English girls are standing at the foot of a hotel staircase roaring with laughter. "For pity's sake, Mabel, don't!" said one of the matrons who were with them. "They'll take you for one of those horrid American girls." An American girl happened to be standing at the head of the stairs and quietly observed: "I guess not, with those awfully big feet!"

### Garden Soil That Lacks.

No valuable is good garden soil that the Arab will refuse \$5,000 an acre for it. Through ages of cultivation it gives no indication of wearing out, hence the exceptional value placed upon it.

### Man's Utter Foolishness.

Man is certainly a stupid man; he cannot make a worm, and yet he will be making gods by dozens.—Montaigne.

## Corns Quit, Pain Stop, With "Gets-it"

Quit Plasters, Nerves and What-Not.  
After using "GETS-IT" once you will never again have occasion for asking "What can I do to get rid of

my corns?" "GETS-IT" is the first, sure, certain corn-curer ever known. If you have tried other things by the score and will now try "GETS-IT" you will realize this glorious fact.

You probably are tired sticking on tape that won't stay stuck, plasters that shift themselves right onto your corn, contraptions that make a bundle of your toe and press right down on the corn. Put two drops of "GETS-IT" on that corn in two seconds. The corn is then doomed as sure as night follows day. The corn shrivels. There's no pain, no fuss. If you think this sounds too good to be true try it tonight on any corn, callus, wart or bunion.

"GETS-IT" is sold by N. H. McCallum, M. A. Hillson Drug Co., and W. L. Brown, 25c a bottle, or sent direct by E. Lawrence & Co., Chicago.

Missouri is one of the States which will have to put the question of Woman Suffrage to the vote next November. 23,000 signatures to the woman suffrage petitions have been sent in. The campaign to obtain signatures was difficult, not because there were not plenty of people who wanted to sign, but because several of the counties have no railroads, and traveling had to be done often by farm wagons and stages. Mrs. W. McN. Miller, State President of the suffragists traveled over seven thousand miles to reach her audiences.
